Professional Summary

Final-year B.Tech (CSE–AI) student who builds and deploys **full-stack MERN applications**, including an LLM app that uses tool-calling web search. Strong in **REST API design, authentication** and data-access security, and interactive React interfaces. Seeking a full-stack developer or SDE role.

Projects

Quantix - AI with Web Search Project Link

- Built a **full-stack AI** chat app where a **Gemini model**, orchestrated through **LangChain**, decides when to call **Tavily search** via tool calling to ground answers in live web results.
- Implemented JWT cookie auth with **email verification via Nodemailer**, and ownership checks on chat deletion so users can only access their own data.
- Built **10+ REST endpoints** covering auth, chats, and messages, with **request validation using express-validator** and consistent error handling.

Finite Project Link

- Built and deployed a full-stack Instagram-inspired web application using **React.js, Node.js, Express.js, and MongoDB**, implementing **RESTful APIs** for authentication, posts, likes, and user interactions.
- Architected and built **15+ REST API** endpoints across authentication, posts, and social graph.

ArcOS - macOS Inspired Web Desktop Project Link

- Built a macOS-style desktop environment in React with **5 functioning simulated apps** (CLI, Notes, Spotify player, GitHub activity tracker, Resume viewer) inside draggable, resizable windows using **react-rnd**.
- Implemented a window manager with **focus stacking and open/close state**, plus **GSAP and Three.js** animations for a native-feeling experience.

Education

Greater Noida Institute of Technology, AKTU **October 2023 – July 2027**
B.Tech – Computer Science & Engineering (Artificial Intelligence)

Skills

Programming Languages	JavaScript, TypeScript, C++
Web Development	HTML5, CSS3, SCSS, Tailwind CSS
Frontend Libraries	React.js, GSAP.js, Three.js, Redux
Backend and DB Stack	Node.js, Express.js, JWT auth, REST API Design Mongoose, MySQL
Tools	Git, GitHub, Postman, MongoDB Compass
AI	RAG, GenAI, Langchain, Tavily, Tool Calling

Certificates

- Google Study Jams – Google Developers Group on Campus
- Frontend Development – Shreyians Coding School
- Student Development on C Programming – E & ICT Academy, IIT Kanpur
- Associate Member – GDG on Campus GNIOT
- Qualified + Silver in NPTEL – Joy of Computing using Python
